

# All Points Bulletin

by Kegler

Some squares contain more than one letter. Each intersecting entry uses the square's letters in a different order; the square should be filled using an anagram of the letters that matches neither entry. When said squares are then connected in a logical fashion (including returning to the starting point), ta-da: 26A.

## Across

- 1 Nag sold, around \$100
- 6 Bats only move us in a spiteful way
- 12 Crown old criminal chieftain
